

NEW

ADHERA

A HANGING POINT ANYWHERE.
IN JUST SECONDS.

MAIN FUNCTIONS

On scene or at the station, **finding a place to hang your gear** takes time — and time matters. **ADHERA attaches instantly to any smooth surface:** glass, metal panels, tile. It holds **up to 70 kg**, and a built-in indicator confirms maximum adhesion. One simple motion is all it takes to remove it, **with no marks and no damage.**

TECHNICAL SPECIFICATIONS
